

PIZZA PANKO™

by  **NEWLY WEDS** FOODS
inspiring new tastes

Topical Pizza Application Benefits

When **PIZZA PANKO** is applied between the cheese and meat/vegetable toppings it:

- ◆ Binds oil and moisture from toppings
 - Prevents “pooling” on top of pizza
 - Limits migration of liquids to the crust
 - Presents a “cleaner” and more appealing delivery box
- ◆ Blends in with pizza components
 - No visual reference or taste contribution
- ◆ Enhances the integrity of cheese and topping components by holding structure and placement on pizza.
- ◆ Provides the texture and appearance your customers are looking for
