

Innovations in Co-Extruded Products

Newly Weds Foods understands the intricacy and need of balancing our ingredients and flavors to create co-extruded on-the-go meals and snack occasions. As consumers' demands for convenience food products continue to grow, the eating experience must also deliver on appearance, taste and texture. With Newly Weds Foods vast experience and expertise in batters, breadings and seasonings our R&D and Culinary teams have created ingredients to help stimulate your new product development needs in creating cravable co-extruded on-the-go meals and snacking products. Let's us know how we can contribute to your future success!

Small plates and shared items are popular across all venues.

Here's a small sample of items for starters.

- ◆ Arancini Sticks
- ◆ Beef Wellington Bites
