

# Crouton Crisps

Salty snacks have crossed outside the boundaries of potato chips and tortilla chips in recent years. Consumers are seeking new ways to fulfill their snack cravings without the guilt, which has led the industry to introduce many new, better for you options. Some new products incorporate protein and nutrient rich ingredients such as chickpeas and beans while others offer exciting new shapes and global flavors. Introducing Newly Weds Foods Crouton Crisps, which transforms a salad topping into an everyday poppable snack that are baked, not fried and is the perfect base to incorporate innovative, global flavors. Featuring a bite sized square shape, a softer bite, and a form that absorbs and holds flavor, these baked crouton crisps are sure to be a favorite!

Crouton crisps have versatile uses as an ingredient as well! Incorporate it into your favorite appetizer, meatball or dip for added flavor and texture.
