

Unicorn Crumb

Instagram has brought new meaning to consumers eating with their eyes. Attractive bright colors and stark goth colors in foods bring adventure, excitement, and even drive purchase decisions. Introducing Newly Weds Foods Unicorn Predust, a series of vibrantly colored products that bring this trend to life. Our colors utilize natural colors and flavors derived from fruits and vegetables and are ready to eat. The application uses of the unicorn crumb color technology are endless, from incorporation into breading systems, to dessert applications, bakery mixes, and shake-ons.
