

# Arepa Inspired

# MAIZE bun

## BAKERY THAT WILL A-MAIZE YOUR TASTEBUDS

Popular in Central & South America, arepas are flat round cornmeal cakes slightly crisp on the outside and soft on the inside. They are traditionally griddle-cooked or deep-fried, then filled with cheese, butter, and meats.

Taking inspiration from this popular dish, Newly Weds Foods created our Maize Buns, a baked version that incorporates the same visual and taste attributes of the original.

- Each 2-oz maize bun is fully baked, pre-sliced, and ready to eat. Packaged for back of house foodservice applications or for retail sales distribution. Shipped frozen with easy reheating in a toaster or panini press. Can also be used as part of a pre-made frozen sandwich and reheated in the microwave.
- Latin American cuisine is very on trend, with arepas appearing in the Inception Stage of Datassential's Menu Adoption Cycle for Bread\*.
- Neutral in taste and flavor and can be a versatile vehicle for any type of application from Latin American cuisine and beyond. Our maize buns are also customizable with sweet or savory seasoning blends for a truly signature product that could fit any daypart.
